#### Which Is Better For Paducah?

bluders in Paducah this fall in their efforts to array mas prejudice against the business interests of the city in the approaching municipul election. Orneors at the Mechanicsburg "raily" the other night drew broad comparisons between our own natty Tom Harrison and lanky Abe Lincoln, and touchling references were male to the boyhood struggles of Gen. Illysses S. Grant. Indeed, the good people of Mechanicsburg were given to understand that they have an opportunity to vote for a prophet of no less magnitude than either of these enowned backwoods boys.

Then comes the little party organ, trailing along behind the verbal blg guus with its mud battery, accusing James P Smith of being "r-r-rich," in a manner that would not lil-become the "Appeal to Renson," and, after the ordinary style of anarchie publications, charging Providence with being an accessory before the fact. It is sobering to reflect how easily an unaccustomed pen follows the logic of the wormwood eaters. The News-Democrat discourses in trito phrases about wealth being a blessing if liberally dispensed and tho rest of the usual tirade, just as if the amount of property James P. Soulth has, or Tom Harrison hasn't, cuts any figures in the situation, except us its management reveals the competency, experience and general fitness of the one or the other for the office.

Tom Harrison is a good fet low. We might' support him for ome positions-but not that of mayor of Paducah. There is too much at stake. Not that we love Tom less, but that we love Padu-

"There will be a itemplican vole for the Democrate ticket for every Remorat who sells himself to the Smith barre." snaris the enraged party organ, sniffing disaffection somewhere, and bringing its slander guns to bear in the proper quarter,

uen, destrous of seeing the city grow and their broaden, who don't want politicians to use the tax money for political purposes. Talking about a "harrel" won't move them. not so much concerned about any private "barrel" that may be opened. ns they are about the danger of a blg public "barrel" being opened in the city hall. They pay taxes, or he'p to do so, and they are going to support a man, who was brought out on the very platform of reduced taxation and municipal improvements,

There are offices to which we are always delighted to boost aspiring young men, especially if they are poor, and the more they resemble Abraham Uncoln the hitter. But municipal adairs in large and growing cities present complex economical quertions, cerning the raising and disbursing of vast sums of money, and prob ems of public improvement, involving financial expollents, multitaining of public credit, contractual relations and into terable matters in which judgment and experience will save the cy thousands of dollars annually. Yet the spellbladers would have is believe that lack of financial experience is the essential we must examine for in our candidates; and the party organ impresses us with the need for liberal handed, generous giver to protect the city treasury in matrs of public works

The mayor's office is not a ciercal position. It is an office, the neumbent of which may so improve the city, promote its welfare and educe its taxes that it will prosper and attract capital and industries; or he may so mismanage or maladminister the city's affairs, by squandering taxes, lungairing credit and impoverishing its resources, that the manielpality will be forever handleapped in the race of pro-

Now, which do you prefer; the man whose property interests and limbility for taxes are a guaranty of good service, with experionce and judgment to back it, or a politician, whose election will mean merely the triumph of a faction in his party?
